

# EACR 24

From Basic  
Research to  
Precision  
Medicine

9 – 12 July 2016 | Manchester, UK

24<sup>th</sup> Biennial Congress of the European Association for Cancer Research

## EACR24 will offer...

See the full programme at  
[eacr24.eacr.org](http://eacr24.eacr.org)

### Focus

Participants can create a tailor-made programme from the 3 parallel tracks covering 18 priority areas

### Innovation

Pushing the agenda to make precision medicine a reality

### Sharing

Poster sessions and proffered papers will allow researchers at all levels to share their discoveries

### Breadth

The EACR Congress is Europe's largest dedicated conference on basic and translational research

### Networking

Excellent opportunities to meet new contacts and develop new collaborations

### Location

The venue is right in the heart of Manchester and the airport is a major international hub

## SESSION TOPICS INCLUDE:

- Cancer Immunology
- Tumour Heterogeneity and Evolution
- Cancer Immunotherapy
- The Tumour Microenvironment
- DNA Damage
- Mechanisms of Drug Resistance
- Liquid Biopsies in Cancer
- Tumour Metabolism
- Epigenetics
- Senescence and Ageing
- Diagnosing Cancer Earlier
- Novel Targeted Therapies
- Signalling Networks in Cancer
- Stem Cells
- Invasion and Metastasis
- Inflammation and Cancer
- Breakthrough Tools in Cancer Genetics
- Tumour Suppressors
- Breakthrough Cancer Models
- Precision Medicine
- Workshop: Women in Science
- Workshop: Young Cancer Researchers
